HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongue to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

Interesting Details of News.

End of the Session of Congress.

WASHINGTON, July 15.—The closing hours of the session passed away without any extraordinary incident in legislation further than a fight over the $5,000,000 Indian appropriation bills. Bills to admit Georgia, to reduce the army, the funding bill and the tax and tariff bills, all passed. Numerous land grant bills from the Senate, and the apportionment bill were all killed in the House. Johnson's bill for the creation of a land district in California called Shasta district, passed both Houses. The Australian steamship matter and the Texas Pacific railroad bill go over till next session.

Charles E. Delong, now Minister Resident, was confirmed Envoy Extraordinary and Minister Plenipotentiary to Japan. M. D. Wheeler was confirmed Melter and Refiner of the Branch Mint at Carson City. Cole opposed the nomination of E. D. Sherman, Collector of the Fourth Revenue District of California, but the nomination has been suspended at the request of Sargent. Sargent nominated M. C. Tilden as Postmaster at Sacramento and Cole prevents his confirmation. If the session closes without confirmation a nomination is defeated. In that case Sargent will nominate the present incumbent, for whose appointment a voluminous petition has recently arrived.

German Steamers Stopped.

WASHINGTON, July 18.—All North German steamship lines have ceased running. Our foreign mails are stopped at Baltimore and New York. The Post Master General is engaged in effecting temporary arrangements with the Cunard and Inman lines of steamers to carry our mails. Several American parties have put in propositions to carry mails in vessels under our flag. This will receive consideration at once; meanwhile it is thought certain our mails will be carried by English vessels.

Business in New York.

NEW YORK, July 18.—Flour 25@30c higher. Sales of 127,000 bushels of oats 1@2c higher. The excitement on Wall street is greater to-day than at any time since the European question arose. The streets are flooded with rumors of alliance between Russia and Prussia and Austria and France. Money moderately active. Exchange quite firm. Government securities very dull, weak and lower. Stocks all off half a point since first call.

Course of our Government.

NEW YORK, July 18.—Private dispatches from Washington report that Admiral Porter has recommended the enlistment of 18,000 seamen and immediately placing of the Navy on a war footing. The President is being advised to convene Congress at an early day to legislate accordingly.

NEW YORK, July 18.—A large number of Germans called on the Prussian Consul here and expressed a willingness to return to take service in the Prussian army. The Consul telegraphed to Bismarck the intelligence.

Mormon Candidate for Congress.

SALT LAKE, July 18.—The Mormon canon today unanimously nominated Hon. Wm. H. Hooper, the present incumbent, Delegate to Congress.

BY THE CABLES.

PARIS, July 16.—Russia is said to be in full accord with Prussia. An effort will be made to localize the war between France and Prussia, Germany not being a party to the question at issue.

LONDON, July 17.—The British Foreign Office has not yet received official notice of the declaration of war between France and Prussia.

Rouher last night told the French Senate that Prussian troops had passed the frontier of France.

Italy and Denmark assure the great powers of their intention to preserve a neutral attitude.

The steamship *Leipsig*, of the North German Lloyd, will not sail for Baltimore as advertised. She is detained at Southampton until further orders from Germany. Prussian merchant vessels in British ports will remain; the crews have been disbanded and are returning home. There are in our ports many German soldiers; these too have been ordered to remain, lest their cargoes fall into the hands of the French.

Rising Feared at Rome.

ROME, July 16.—A Liberal uprising is expected here, and an attack on the city is entertained.

War Movements.

PARIS, July 16.—It is said that France will oppose to the Prussian rifled cannon a revolving cannon, shooting 40 balls per minute. Perhaps it is Hymen's American gun. The French forces on the frontier are estimated at 130,000. It is believed that the Prussians will attack the fortified city of Metz from two directions, viz.: from Bienville and Kiehl. It is said the French are throwing bridges over the Rhine near Kehl. The French army is concentrating at Metz. A French gunboat flotilla is on the Rhine, Admiral Gerometri commanding. The balance of the fleet will bombard Prussian forts. The French gunboats are already in Prussian waters, and the army and navy will attack simultaneously. A French fleet is watching the Prussian fleet in the British Channel, awaiting orders to attack. Sweden will remain neutral. Denmark, the key of the Baltic, offers to join France. Austria remains neutral. Spain is friendly, and Prim has written to Napoleon. England will be neutral.

Last night by order of Prussian authorities railway and telegraph communication between France and Prussia was destroyed.

The *Opinion National*, Prince Napoleon's organ says, we learn from good authority that Italy has tendered France, at the latter's option, either her friendly neutrality or unconditional aid. It adds that Prussia has offered a province to Austria for a treaty of alliance.

The *Journal Official* denies that Prussian troops have entered France. Telegrams on the subject are contradictory. The latest report is that no Prussians are known to have crossed the Rhine.

BERLIN, July 16.—Immediate mobilization of the entire Prussian army is ordered.

LONDON, July 17.—The Crown Prince Frederick will take command of the armies of the States of South Germany.

MUNICH, July 17.—The Bavarian army, including the reserve corps, has been ordered to take the field.

German States Support Prussia.

LONDON, July 17.—A dispatch from Berlin says the South German States, responding to Prussia's notice of declaration of war, are enthusiastic in support of Faderland. Political differences are obliterated by the aggressions of France. Columns of Prussian troops are moving toward the Rhine and north coast.

Rumors from Paris.

PARIS, July 17.—It is rumored that an engagement took place near Forbach, resulting in a loss to the Prussians of 3,000 killed. The French loss was 2,000 killed. The report is traced to no reliable source. The *Moniteur* says France desires that the neutrality of Belgium shall be maintained, but will require Prussia to be held to an equal responsibility.

Hamburg and Prussia.

HAMBURG, July 17.—King William sent to the Chamber of Commerce of this city, a grateful acknowledgment for the patriotic address of that body.

Preparations in France.

PARIS, July 17.—It is reported that the meeting of the High Court of Justice has been indefinitely postponed. General amnesty will be proclaimed to cover all cases before that Court except that of conspiracy against the life of the Emperor.

The *Moniteur* has positive assurance of the intention of Spain to keep clear of any complication in the impending struggle. It is announced that 250,000 French troops are ready to cross into Germany. Zouaves from Africa are disembarking at Marseilles.

Attitude of Russia.

LONDON, July 17.—Authentic reports have been received that large bodies of Russian troops—250,000 in all—have been concentrated on the frontier, divided into two commands, with all the appointments of two distinct armies, artillery, cavalry, infantry and engineers, apparently ready to be sent across the line on the first announcement that Austria takes sides in the present conflict. If Austria should attempt to aid France by sending away any considerable number of troops, Russia is evidently making ready to take advantage of the movement by precipitating those mobilized armies on Austrian territory.

Enthusiasm in Paris.

PARIS, June 17, midnight.—The enthusiasm is intense. The people offer to pay double taxes. The police are obliged to protect the residences of Thiers and Favre, who opposed the war. Prussia proposes to invade France with immense forces.

PARIS, July 17.—A loan of six months Treasury bonds to the amount of 500,000,000 francs has been taken up in a few hours. The Credit Foncier and the Bank of France made efforts to monopolize it.

The Attitude of England.

LONDON, July 18.—The *Morning Post* has a double leaded article containing the following: "Any violation of Belgian territory ends England's neutrality."

The *Times* says it expects to be obliged to chronicle Prussian reverses at first, owing to superior preparations and efficiency of the French army. Prussia needs at least another fortnight to get all in readiness. The *Times* also says that France, without a shadow of excuse or justification, plunges Europe into a war of which no person living may see the end.

Later from Paris.

PARIS, July 18.—France demands a decision from the South German States by noon to-day.

Marshal Canrobert commands the first army corps, the Duke of Politas the second, General Froissard the third, Marshal McMahon the fourth and General Foley the fifth. Marshal Bazaine will command the Imperial Guard and reserves.

The French evacuation of Rome is again rumored.

A French man-of-war watched the departure of Prussian ironclads from England.

The *Gaulois* says the English Government has instructed Lord Lyons to communicate with Grammont on the subject of the neutrality of Holland which England wishes stipulated.

The "Insult" to the French Minister.

BERLIN, July 18.—The *Official Press* asserts that Benedetti, late French Ambassador in this city, courted insult by repeatedly addressing the King after he had received Prussia's ultimate answer and renewing insolent demands. He says he was recalled by the French Government but had leave of absence granted him on a matter altogether foreign to the question at issue.

LONDON, July 18.—The French Government is now enforcing the code relating to the prohibition of cypher words in telegrams.

Attitude of Switzerland.

ZURICH, July 18.—Switzerland will maintain armed neutrality. The Chambers have granted plenary powers to raise money and troops.

Attitude of Sweden.

COPENHAGEN, July 18.—The neutrality of Sweden has just been officially announced, the Government having previously communicated with France.

General Details.

PARIS, July 18.—*La Gloyner* Republican organ holds that the Empire is answerable for war without a pretext.

At noon the French troops occupied Saarbrich, Neuberu and Linden. Baron Alfonso Rothschilds has resigned the Prussian Consul Generalship here. The King of Prussia refused to receive him at Ems.

CARLSRUHE, July 18.—Troops arriving by Baden are encamped at Radstad.

LIVERPOOL, July 18, 2 P. M.—There is a panic in the market. Quotations are entirely nominal.

PARIS, July 18.—The *Figaro* says that France distrusts Belgian neutrality because Gen. Briolemt and Mayele, appointed to command Belgian reserves, are known to be unfriendly to France.

BREST, July 18.—The steamer *Paris* arrived to-day.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, July 17.—The deaths in the city during the past week were 63. Of these 5 occurred in the country; 15 were still-born, or so reported; one suicide, and 3 casualties. The deaths for the corresponding week of 1869 were 69, and for the corresponding week of 1868 the deaths were 81.

Herman Ehlre, William Bergen and Charles Haas, old Prussian soldiers, left yesterday for Germany, in order to take a part in the war.

A German war meeting, to raise hospital funds, is to be held Tuesday evening.

The captain of the ship *Royal Alice* reports when in latitude 32 degrees 5 minutes north and longitude 120 degrees 11 minutes west, running to the westward, to try to get clear of a cyclone, which overtook us with its southern margin, doing damage to sails and bulwarks; passed a bale of goods tied with rope bands, apparently not having been long in the water; could not see marks or number upon it, it being too dark. When 120 miles west of this port she experienced a strong northwest wind, with a high, confused sea running, during which she had the foretop gallant mast carried away, besides suffering other damage.

The following news was received from the seat of war:

PARIS, July 16.—Belgium has destroyed all the bridges on the French frontier. Russia and Prussia are reported in full accord.

ROME, July 16.—Great excitement. A liberal uprising and an attack on the city is expected. No fighting yet reported.

SAN FRANCISCO, July 17.—The feeling between the German and French residents growing out of the war is becoming more intense, though no serious collisions have yet occurred. The Germans have issued the following placard: "Five thousand dollars reward will be given by the Germans of San Francisco to the patriotic Frenchman if he goes and gets that Prussian flag himself for which he offers $500. (Signed.) Joseph Emeric."

All parties appear to be thoroughly demoralized on the question of the coming municipal election, and the longest purse will carry all the offices. There is some talk among the Republicans of throwing Crowley overboard and nominating Capt. Baker.

Ex Gov. Stanford has purchased the place known as Warm Springs, Alameda county, near the Mission, San Jose, and will erect there the finest residence in California. The purchase includes 640 acres. The springs hotel will be closed as soon as this season is over.

The funeral of the late Col. Winters, of the Irish batallion to-day, was the most extensive seen in this city for many years. The militia, without distinction of nationality, turned out in full force and an immense number of civilians in carriages followed the remains to the grave. An artillery salute was fired as the remains entered Calvary Cemetery, and the services at the grave were of the most imposing and solemn character.

Ex Chief Burke will be nominated for Chief of Police, in which case there will be three candidates in the field, as there will be for a number of other offices. Among the Democrats the contest for Auditor will probably be between R. W. Fortune, late of the Assembly, and C. L. Weller.

The French and Germans are raising their national flags on their places of business, a number being seen to-day. The Spanish-Americans offer to sympathise strongly with the Germans and their sympathy will be manifested in a practical shape within a few days. The Germans will have a large attendance at their meeting called for Tuesday night.

SAN FRANCISCO, July 18.—On Saturday Alexander Leech, employed at the Pacific Rolling Mills, received a terrible wound from a red hot iron which penetrated his abdomen, from which he has since died after terrible sufferings.

Pat. H. Grimes, Jas. Clark and B. Bazzaline were drowned by the upsetting of a new boat invented by Bazzaline, which was being tested in San Antonio creek yesterday.

About 11 o'clock last night two men went into a saloon which is kept by N. Hochgurtel, corner Kearney and Pine street, and commenced playing cards and ordering drinks, for which they did not pay. Hochgurtel demanded pay, when a quarrel ensued, and he was struck in the face by Barney Kennedy, whose blow he returned. Barney then drew a heavy Colt's revolver and struck his antagonist several times on the head, cutting him severely. He the attempted, it is said, to fire, but the pistol was secured by a third party and taken out of his hand. He then drew a knife and commenced cutting indiscriminately around him. He stabbed Hochgurtel in the under lip, cutting it through and injuring his jaw, also stabbed him in the cheek, and in seven different parts of the head and body. A young man, John Reitz, book-keeper in the saloon, got cut in the side of the neck, near the right ear. The wound is two inches in length, deep, and it is feared it will prove fatal. Special officer Spiller, who is employed to preserve peace in the saloon, in attempting to do so was cut in the head. He says that Barney directed the knife at his abdomen, and that in directing it from its object his thumb was almost cut off. All contestants were covered with blood, and the place resembled a slaughter-house at the close of the fight.

At two o'clock this morning a fire broke out and destroyed four dwellings on Jessie street, near Third, ten horses being burned.

SAN FRANCISCO, July 18.—The European war news has completely unsettled everything in our markets. Greenbacks, wheat, and French goods of all descriptions are entirely unsettled. There is a disposition to advance all French goods. Holders are firm in all descriptions. Purchases of wheat under $2 could not be made in any quantities.

A Portugese farmer named Silva, residing near Alvarado, shot a countryman, who had been in his employ, last evening, killing him instantly. Deceased had been ordered off the premises, but returned, threatening his employer's life.

No fresh orders for wheat have been received from England. The ship *Elton* has been chartered to carry 2,000 tons of coal to the French fleet at Tahita immediately, the freight to be $14 per ton gold, an unusual price. She is already loading.

Gen. Angel Martinez, of Mexico, who fought the French gallantly and routed them repeatedly in Sonora and Sinaloa, and expelled them wholly from the former State in a brief campaign, starts for Prussia via New York overland. He is a perfect master of light cavalry fighting, and proved his courage in many hand to hand conflicts.

Letters received at the Labor Exchange indicate the probability of a considerable immigration to California from Algiers, Africa.

The French held a meeting to day at the store of a wholesale French house in this city, and resolved to organize to raise funds to equip and send men to France to engage in the war, and to furnish funds for the hospital service, and make arrangements for furnishing commanders of French war vessels in the Pacific with information of the movements and whereabouts of all German vessels.

Dispatch from Marysville.

MARYSVILLE, July 18.—It is rumored that the C. P. and C. N. R. R. Companies have formed a close connection and track, the latter to be made to conform to that of the Vallejo route, and a freight depot to be erected on the site of the present depot of the California Northern Railroad.

Stockton Dispatch.

STOCKTON, July 18.—The European war news created great excitement in the wheat market. Wheat is selling to day at $1 75@1 80.

An artesian well 136 feet deep, for water-works, is completed.

Dispatch from Los Angeles, Cal.

LOS ANGELES, July 18.—Horse stealing continues. Another stage robbery is reported on the coast line above San Luis Obispo, on Thursday night. Wells, Fargo & Co. lost $1,000.

NEVADA.

White Pine Dispatch.

HAMILTON, July 18.—Gov. Matteson, of Illinois, breaks ground this morning for the erection of smelting works. Mining operations are more lively. The people are urging the erection of separating works that will give the miners speedy returns for their ore. Bullion shipments the past week, $32,773 22.

Virginia City Dispatch.

VIRGINIA CITY, July 18.—J. W. Hawkins, formerly a policeman in this city, was discovered to-day dead in his room, shot through the head. Hawkins killed a man two or three years ago, and it is supposed he may have been murdered by some friend of the man he killed.

VIRGINIA, July 18.—About 9 o'clock last night the large new dump of the Eureka Mining Company was entirely destroyed by fire, which originated from a spark from a locomotive.

Wells Fargo & Co. ship to-night 26 bars of bullion, valued at $53,928 92.

CURRENT NOTES.

St. Louis is laying herself out for the city of magnificent distances. She is increasing her borders, and preparing herself for metropolitan rank. She is to have eighteen miles river front, and six miles depth, and to be surrounded by a Boulevard 200 feet wide. At that rate she will be nearly half the size of London. It takes a deal of blowing to make a frog as big as an ox; sometimes the frog bursts herself in the process.

"Coming events cast their shadows before," but if the event be a myth, it can then cast the shadow of a myth. Rather airy and unsubstantial. A new American Republic to be formed of a federation of all the West India groups, with all their heterogeneous interest, and mixed populations. Let us settle with Cuba and Mexico first. We can think about the rest in a couple of hundred years. Some things may have happened before them.

We do some things well, but we do other things ridiculously ill. As a nation we reject all teaching and insist on hoeing our own row. Even China beats us on the census. There a census goes on every week. In England the census is taken in one night, or rather in one day, from sunset to sunset. We begin ours when the gods please and end when the appropriations are spent. It don't much matter. We are a great people, and a few millions more or less in the enumeration will be of no consequence, so long as the right parties get the public pay.

The working man in politics cannot surely be a voiceless nonentity in this country, as some of the more ardent speakers at the workingmen's meetings declare. The workingman is unrepresented. Who, then, is represented? Certainly the rich man is not represented. If the working man chooses to lie down with the Democrat or the Republican, and to lose his identity on their party platforms, he is still represented. All Americans are workingmen. Not a few workingmen are capitalists. But the expulsion of Whittemore or the belligerent rights of Cuban patriots, or the personal wrangles of Logan Butler or Bingham, with land grants and lobby interests, are vastly more important than workingmen's questions, and that's the reason they vote for Democrat and Republican partisans.

Prof Ch. Fred Hartt, who is to lead the party and who has already twice visited Brazil on scientific expeditions, describes, at the request of the editors of the *Cornell Era*, the plan of the one now in preparation. We quote a paragraph: "It is my wish on this expedition, with the aid of my large corps of assistants, to make a series of collections of marine animals and examine the coral reefs between the mouth of the Amazon and Pernambuco, with a view, amongst other things, of determining the relation of the marine fauna of Brazil to that of the West Indies, and to determine whether the great equatorial current which splits at Cape St. Roque, part flowing north, part south, has an influence on the distribution of the animals north and south of the Cape. * * The study of the geology and physical geography of Brazil is throwing unexpected light on the structure of North America—for the two Americas are repetitions of one another, and correspond not only in the general form, but also in structure, so that we may trace a long series of homologies between them."

The Daily Oregonian.

TUESDAY MORNING JULY 19 1870

Judge Boise's Letter

We are in receipt of the published letter from Judge Boise, wherein he professes to define his political position. His letter is written with some warmth [illegible] article relating to his political [illegible] are not true in any respect [illegible] strong words. The assertion they make is a [illegible] ing one. We shall examine the letter and recall some of Judge Boise's political actions and then the public can [illegible] whether our statements which he has so vehemently denied are true or not. To the larger number who have been familiar with his course for several years past nothing new can be developed about it. But there are others who may not know so well what the peculiarities of his course have been.

The statement made by us to which he takes exception is this: "Some of the recognized leaders of the party there in Polk, amongst whom we may mention Judge Boise and Mr Sullivan, have not been willing to accept any prominent measure of the Republican party for the last five years. They protested against the reconstruction laws and thought them all wrong." In his letter of reply Judge Boise says he has uniformly supported all the reconstruction laws of Congress and defended them on all proper occasions.

Now it is well known that the establishment of the right of suffrage to the colored men of the South was the basis of the reconstruction laws. Yet Judge Boise has uniformly talked against negro suffrage. We suspect he would not care to deny that he was opposed to giving the elective franchise to the blacks of the South, and that he frequently so expressed himself. In fact he talked against negro suffrage on all proper occasions, and on many occasions that were not proper for one desiring to maintain a standing as a Republican and aid the party by justifying its measures. How he can say so emphatically that he has uniformly supported all the reconstruction laws, when in point of fact he has uniformly opposed and denounced the principal idea on which they were founded we would not undertake to determine.

Judge Boise was an ardent supporter of the reconstruction policy of President Johnson. Early in 1866 when the rupture occurred between Congress and the President Judge Boise warmly espoused the cause of the latter. It was determined by a number of politicians who met at Salem to make an effort to pledge the Republican party in this State to Johnson and against Congress. Telegrams were sent to different places to invite co-operation. Judge Boise, we think, will not deny that he participated in these proceedings. The *Statesman* came out vigorously for Johnson and denounced Congress without stint. We were informed at the time and have been informed frequently since, that Judge Boise was one of those who encouraged and inspired that movement. Again when the fourteenth amendment was proposed he pronounced against that. A meeting was called at Salem to consider it. Within the last forty-eight hours we have been informed by a person who was present at that meeting by invitation, that Judge Boise was there and demanded that a stand be taken against the amendment, and insisted that the Salem paper should come out at once in opposition to it. Others who were present refused to encourage the proposition, and it was dropped. Judge Boise had a perfect right to his opinions and a perfect right to take what course he chose. We do not assail him for it. But we desire that all who have read his declaration that our "statement was not true in any respect" shall be put in possession of such facts as will enable them to judge for themselves.

It was the opinion of Judge Boise that the reconstruction laws would prove the ruin of the Republican party. He thought that party could not carry the heavy load of negro suffrage. Hence, when the Democrats gained some successes in 1867 immediately after the reconstruction laws were enacted, Judge Boise, as we are informed, argued that negro suffrage had done it, and expressed the opinion that the party was lost. The witnesses are numerous who can testify to the general tenor of his political course and we should think he would hardly try to escape from the record he has made.

He admits that he opposed the fifteenth amendment. Now that amendment was only designed to give colored men at the North the same rights which the colored men at the South already possessed. If Judge Boise was willing to allow the former the right of suffrage what logical objection could he have to allowing the latter the same right? In the North the number of colored is comparatively small, and they are generally intelligent. In the South the number is large and ignorance predominates. Every candid person must admit that there was really less objection to granting the suffrage to the blacks of the North than to the blacks of the South. Besides the fifteenth amendment grew logically out of preceding measures, and though not in name a part of reconstruction yet in principle and fact it was a part of it.

We must add here that it seems both inconsistent and unkind in Judge Boise to declare his opposition to the fifteenth amendment after being elected under that amendment by the colored vote.

Nothing we have said about this matter has been uttered in a spirit of malevolence or unkindness. In speaking in a former article of Judge Boise we supposed we were saying nothing more than was very generally understood about his political course. We did not impugn his motives nor do we now. We only questioned the soundness and wisdom of the policy of trying to contend against your opponent while admitting at the start that your own measures are dangerous and wrong. We can succeed only by contending that we are in the *right*. When we cannot do that according to conscience we should go to the other party and try to defeat the measures that we deem wrong in principle and dangerous to the country.

The *Daily Bulletin* made its appearance yesterday. It combines most of the leading features of a good newspaper. Its columns show industry and skill on the part of its editors. The *Bulletin* enters the field with spirit and energy, and no doubt will show itself worthy to achieve success. We extend friendly greetings to the new journal. The editorial force of the paper consists of Mr James O'Meara, Editor; Dr A A Ames, Assistant Editor, and Mr J M Baltimore, Local Reporter.

It appears that the report that President Grant had called a special session of Congress to take what action might be deemed necessary in view of European complications, was premature. A session has not been called yet, but it may be soon.

Canned Fruits

There is a branch of industry that has so far been neglected in Oregon which might be carried on here with profit to any who would undertake it and with advantage to the State. A large amount of the canned fruits, preserves and jellies which we import from San Francisco and the East could be put up here at home. [illegible] the fruits as the peach which cannot be [illegible] but we have or could have all of the [illegible] in perfection. The amount of canned fruits brought into Oregon is very large and is increasing yearly. During the last two or three years the business of canning fish has grown into an important industry, and that of canning fruits might also be equally developed. Instead of importing these canned goods and paying a heavy profit to others upon them we might open a large market for our own products and materially advance an important branch of the agricultural interest. If our State is to prosper we must get rid of the habit of contenting ourselves with being [illegible] to producing anything and everything that our resources invite us to take hold of. We mention this item of canned fruits because it is one that occurs to us just now and because though neglected the business is one that may be readily engaged in and become a really useful and profitable industry.

The war in Europe and the unusual demand for money for war loans happens unfavorably for our new funding scheme. It was doubtful before whether we could sell new bonds bearing a low rate of interest at par. Now it seems certain that we cannot. There is too much excitement in the money market to expect it.

For the first four months of the second year of Gen Grant's term of office the total decrease of the national debt has been $51 969 877. Beside this single fact, says the New York *Tribune*, how small appear the cavils against the administration of our financial affairs.

Suit against the Central Pacific Railroad Directors.

The Directors of that mammoth corporation known as the Central Pacific Railroad Company of California to whom certain parties in Oregon have been so anxious to deliver up the railway system of this State are charged with having managed things in a way that would do Jay Gould and the Erie ring credit as railroad operators. The following account of the commencement of a suit against them is from the Sacramento *Union*:

Samuel Brannan brings suit against the Directors of the Central Pacific Railroad Company for an equitable share of the assets and profits of said company, secured by various Acts of State and Congressional legislation from the nation, State, counties and municipalities. He claims to be the owner of 200 shares of the stock bought in November 1864 and paid for at par value. He alleges that the Directors procured their stock without valuable consideration and that they have done acts which they had no right in law to do, whereby the stockholders generally were defrauded and the Directors themselves enriched. He charges that they are and have been acting as Directors by means of their own wrong, that they have operated in secret, that they have made contracts with each other by which they have managed to receive vast sums over and above the actual cost of the work, thus defrauding the stockholders. He says the assets of the Central Pacific Company in currency amount to over $156 000 000, and that of this sum there has been no division among the stockholders. He alleges that there are side enterprises in which these Directors are principal owners, such as the Western Pacific, Southern Pacific of California, California and Oregon and the San Jose Railroads, which were secured by the Directors with the assets derived from the Central Pacific, in which the general stockholders are kept from sharing, and he claims an equitable right in law to a share in all these side enterprises. The purpose of the plaintiff appears to be to compel the Directors to show their books in Court and to disgorge the alleged profits of the whole business, pro rata to all the stockholders. He charges that the Directors have taken deeds in their own individual names to vast properties which are justly the property of the original stockholders to be divided, share and share alike, equally among them all.

The Rhenish Provinces

The London *Times* of the 11th inst in an article discussing the situation in Europe declared that the real issue in the quarrel between France and Prussia is in the possession of the left bank of the Rhine. On this subject we give the following from a California paper which declares that the real cause of the course taken by France is the old bone of contention, the Rhenish Provinces:

For a century and a quarter France has been struggling to extend her northeastern frontier to the Rhine. It was one of the favorite dreams of Louis XIV and he did succeed in touching that coveted stream. But that does not satisfy French ambition, least of all the ambition of a Bonaparte, but more especially a Bonaparte whose interests are to be promoted by foreign war, and whose dynasty is not safe short of some glorious triumph over a peaceful neighbor. These Rhine provinces embrace about 11 000 square miles of territory and are densely peopled, rich, growing, part German, part French in language and of mixed religion, but chiefly Catholic. They lie on both banks of the Rhine, touching Holland and Belgium on the West, France on the South, and Nassau and Baden on the East. They are separated from the main body of the Prussian Kingdom by Hanover and Nassau, and therefore, from geographical position, more naturally a part of France than of Prussia. But if Prussia can ever manage to consolidate and absorb South Germany as she has North, then the Hohenzollerns would have a Kingdom, including Bavaria, Wurtemburg and Baden, larger than France, richer and more populous, and it would be Protestant. But if in addition to this a Hohenzollern reigned in Spain, then France would be held in perpetual check and have to content herself with her present boundaries and cease to be the periodical disturber of the peace of Europe. It is well known that notwithstanding the treaty of Prague, Prussia has been endeavoring to form alliances with Baden and Bavaria looking to such a union under the military leadership of Prussia, as has already been consummated with Hanover, the Hesses and North Germany generally. This action is what gives umbrage to Napoleon.

The War and the Grain Market

From the Sacramento Union July 12

A European war that should involve France, Spain and the German States would inevitably cause high prices for any surplus of wheat the United States may have to spare for England. England furnishes the wheat market for all the world. Prussia, Russia, France and this country are her leading importers. France is this year short, whether from actual drouth as has been reported or because the Emperor knew a war was coming, he has thrown open the ports of France to all foreign breadstuffs free of duty this year. In 1859 and again in 1866 France shipped eight million centals of wheat to England, last year about two millions. Prussia's shipments nearly always exceed those of France, and Russia stands second to the United States. This year the British supply from France and Prussia, if not from Russia also, will be cut off in the event of the war now so imminently threatened, and the United States will have to make up the loss in her surplus of wheat and corn. As the crops of England are below the average, the demand upon us will be for every bushel we can supply, and since the crops in the West are nothing to boast of, California and Oregon will have their opportunity to make up for the very low price of last year.

A New Hampshire woman told the census enumerator that her age was thirty-one years, and said her oldest son was twenty-seven. The C. E. thought there must be some mistake here.

Victor Hugo is now suffering with a disease of the eye. He is even unable to sympathize by letter with the revolutionists of Europe and employs an amanuensis.

John McKibbon, Sheriff of Madison county, Iowa, is only three feet high, twenty-two years old and weighs twenty-eight pounds.

OREGON

William Hall of Polk county has picked 600 gallons of strawberries from one acre of ground.

Rev. A. Jackson, A. B., of Lancaster, Ohio, has been elected Principal of the Umpqua Academy.

A young man named Frank Radcliff, 21 years of age, was drowned on the 5th inst in the Coquille river while bathing.

The *Statesman* thinks that when both our railroads are built and Portland gets astride of the Willamette, the east side and west side quarrels will be about played out.

From the Roseburg *Ensign*: A party in the employ of the O. & C. R. R. Co are engaged in surveying and locating the road south of this place. The road is already located and the lands withdrawn to this place.

Notice has been served upon W. H. Dunn, Republican Representative elect from Benton county, that his seat in the Legislature is to be contested. The *Gazette* is of the opinion that the contest is due to the cheek of Democratic office seekers.

There will be a meeting of farmers and others interested in having an Agricultural Society in Douglas county at Roseburg on the 30th inst to complete an organization. Residents of the county are urged to subscribe the requisite amount of stock, 100 shares of $25 each.

The Eugene *Journal* states that the Oregon Central Military Road Company are about to commence work and repairs on their road. Mr Wm Odell will start out in a day or two with a company of six men to repair the road, and will probably be gone six weeks or two months.

William Hathaway, who was burned to death in his own house, near Elkton, Douglas county, a few days ago, had on two former occasions lost his house by fire. Before this last fatal accident he had secured a comfortable home and was expecting the arrival of a portion of his family from the East whom he had not seen for twenty years.

The *Plaindealer* learns that the Douglas county Agricultural Society, of which Jesse N Barker is President, propose holding a fair some time this fall. A new mail line has been started from Roseburg to Randolph, and new offices have been established at Ten Mile, Camas, Enchanted Prairie and on the Coquille. A. A. Fink is the contractor.

The *Gazette* tells us that a lady by the name of Owensby, living near Corvallis, has recently enriched her lord by presenting him with a pair and a half of healthy infants. The predecessors of the trio were twins, and thus the lucky husband drew a pair and "filled." The mother and babes are doing well and the father as well as could be expected.

The Coquille and Isthmus Slough Railroad Company, in Coos county, have their horse car railroad, connecting the waters of the Coquille river and Coos Bay, so far completed as to be of great utility. The road is to be extended to a point on the Isthmus Slough to which a light draft steamer can come, which will make it a valuable medium of trade between the agricultural portion of the county and the localities devoted to the lumbering interests.

WAR NOTES

Dispatches from San Francisco indicate that there is great excitement in that city among citizens of French and German birth. The accounts are amusing. We may see from the conduct of the French and Germans there, how ridiculous we Americans often seem to other people when we get on to our lofty Fourth of July moods and threaten, as Sam Slick has it, to "lick all creation."

On the 1st of July Gen John Love, a West Point graduate, sailed from New York for the purpose of urging upon the Governments of Europe the introduction of the Gatling Gun. This arm is not intended to supersede either musketry or artillery, but to be used in addition to them. With very great range and accuracy, it throws more than 400 shots a minute. Gen Love will reach Europe with his new engine just in time.

Certain crowned heads are gathering indefinite multitudes of men and marching them rapidly to meet each other on the confines of their respective territories. Some tens of thousands are to die gloriously by the explosion of gunpowder in machines of the latest and most scientific construction. Then the honor of the crowned heads will be satisfied and peace will be proclaimed. The account of the war—is the seed which will grow into many volumes.

A French author writing upon the contemporary wars, has favored the world with some curious statistics about their cost. He takes the total outlay which he divides by the number of men killed on the field or sent away to die of their wounds or of some sickness of the camp. In the Crimean war, where many men were congregated in close quarters, there were more than 760 000 men killed (he calculated) at a cost of $2 156 each. Putting the deaths in the American civil war at 281 000, which appears to be a low estimate, each was purchased at an expenditure of $16 125. In South America—he does not say whether in Mexico or Paraguay or both—the cost was $4 500 per life. In the Danish war 3 500 lives were extinguished at an average cost of $10 000 each. The Austro Prussian campaign of 1869 ending at Sadowa cost $7 000 per death. Thus the cost of killing one man in war would comfortably maintain several in time of peace.

FOREIGN NOTES

Eighteen thousand emigrants left Liverpool for the United States during June.

There was a destructive earthquake in Greece on the 2d July. An island was sunk in the sea and one town laid in ruins.

The principal slave owners of Cuba have held a meeting for the purpose of considering the practicability of abolishing slavery. The principal objection is that the liberated slaves would become paupers. Common. That used to be the argument in this country.

A cable dispatch of the 10th says: Several of the Spanish journals condemn Prim's action in the case of Prince Leopold. The *Epoca* says the dignity of Spain is yet safe, the Cabinet alone is compromised, and there is time yet for the Ministers to listen to the voice of Europe and stop in their perilous course.

The English settlement of Gambia on the coast of Africa has been ceded to France in exchange for a bit of territory adjoining Sierra Leone. The Gambian settlers protested against the transfer and urged their loyalty to the British Crown as one reason why they should not be turned into Frenchmen. Sir Arthur Kennedy replied that loyalty was a mere matter of sentiment and advised them to petition the Queen.

Experiments were recently made at Portsmouth, England, with Rogers' projectile anchor for life saving purposes. An anchor weighing 18 pounds and carrying a one inch whip line was through a block was thrown to a distance of 156 yards from the shore by means of an eight inch mortar with a charge of eight ounces of powder. A hawser was rove by means of the whip line and a ship's launch with ten men hauled out over the spot.

To her accumulated national difficulties, Spain adds the constantly recurring one of a financial deficit. To a country whose available resources are so scanty as those of Spain, a sum equal to $41 000 000 represents a very formidable balance on the wrong side of the account. If those at present at the head of affairs in that unhappy realm would, instead of endeavoring to perpetuate a bankrupt kingdom, only give the experiment a fair trial of a Republic that should pay its way, they would not only merit the eternal gratitude of their fellow countrymen but the respect and admiration of the civilized world.

The friends of Lola Montez declare that she never had any children.

The Summer House is full but there is always room for [illegible]. The [illegible] fishing season is nearly over, and apparently the [illegible] men engaged in fishing will be out of a job.

Weather cool and pleasant.

FORE [illegible] Our census takers occasionally run across good things as well as things vexatious. One of them who relishes the humorous or ludicrous features of an incident relates that the other day he was popping a few questions to a young woman about her age, of course whether single or otherwise, etc etc. The young lady was rather angry and answered somewhat [illegible] with intent to strongly impress the interrogator with a sense of her comparative superiority as a member of the human family. [illegible] young lady, and single, and [illegible] State in which she first opened her eyes upon a vulgar world. Were her parents [illegible] foreign born? [illegible] they were both of foreign birth"—this with an air which [illegible] and descended of noble blood. "About [illegible] parents being foreign born would she be kind enough to inform the agent and representative of the United States as to the precise State, kingdom or principality in which her parents first saw the light?" (Loftily)—"Yes, my paternal ancestor was born in New Jersey and her [illegible] was a native of Missouri." Here the agent and representative of the United States suddenly recollected that he had a pressing engagement at the next house. He hadn't got half through laughing when he told us the story.

NO ROOM FOR DOUBT.—We suppose that when the editor of the Vancouver *Register* wrote the following he never dreamed of being egotistical:

"Some of our enemies are making themselves very officious about our competency as Register of the Land Office. These wise-acres can dismiss all their fears on that head by a perusal of the course of studies pursued at Yale College, where they will find *surveying* one of the principal branches. We are a regular graduate of that institution and have taught surveying the years at least, [illegible] the twenty since our graduation. It is doubtful whether there are *three* Registers in the United States who have as good an education as ourselves, though of course we are not as well posted in the minor details of the office as a man who has held it for a number of years." It strikes us that the admission in the last clause of this last sentence, is entirely unnecessary.

HELD TO ANSWER.—Joseph Hackney had an examination before Recorder Anderson, yesterday, upon the charge of complicity in the recent robbery on the White House road. The material evidence brought out in the examination was in substance that the two men who stopped [illegible] and the girl called "Dick," [illegible] recognized by both Morton and "Dick" as Bargman and Hudson, both of them escaped prisoners from the jail [illegible] The same men are supposed to have been the ones who shot Hutton and robbed him and his party. They had been secreted in or near the city for several days, and young Hackney furnished them some supplies. The Recorder held him to answer in the sum of two hundred and fifty dollars. Up to last evening, bail had not been procured and Hackney was in [illegible]

RAILROAD SURVEYS.—The *Bulletin* of last evening says: Colonel [illegible] H. Belden, Civil Engineer, with a corps of assistants, has concluded the survey of the two passes through the mountains about respectively three and four miles below this city on the side of the river, for the purpose of making examination for a practicable route for the line of the Willamette Valley Railway Company's road [illegible] what result we are not apprised. To-day Colonel Belden moved his camp to [illegible] and will proceed to examine for a practicable route for the same company, from the line of the California and Oregon Railroad, to cross [illegible] Oswego, and thence on this side of the river through to Hillsboro and Forest Grove, through the Tualatin [illegible] country.

AS TO [illegible].—We are informed that the old bridge across King's creek is in a very unsafe condition, many of the planks being worn and broken. Some of these days there may be another suit for damages against the county. In which the condition of this bridge will cut a big [illegible]—perhaps [illegible] a figure to be agreeable to the [illegible]. The county has already expended considerable sums of money in [illegible] for broken [illegible] out of bad bridges. The [illegible] such matters is to be liberal with money [illegible] expensive rather than prodigal with [illegible]. We presume however that [illegible] necessary to call the attention of [illegible] the State of the bridge [illegible]

[illegible] We are informed that the [illegible] North Pacific Railroad are expected [illegible] by the steamer which is to [illegible] from San Francisco. This [illegible] here awaiting orders will [illegible] The parties and [illegible] be made up here. As [illegible] here will be employment [illegible] considerable number of men.

The ... coming in, the burglar fled incontinently under the bed, where he was shortly found, captured and dragged off to jail. He was examined yesterday before Recorder Anderson and held to answer before the grand jury for housebreaking. He gave his name as Wm. Watson.

Photographic Views.—Buchtel has completed a portion of his lately-taken views on the ... and in the Cascade mountains, and has them on exhibition in his stereoscope at his gallery. Several of them are new and very beautiful. We understand that he will have quite a number of these views to dispose of. They can be used in any of the ordinary little stereoscopti...cons.

Burglary and Robbery.—Late Sunday evening the residence of Mr. P. Manciet, corner of ... and Pine streets, was broken into by burglars and robbed of $200 coin. A gold watch and some jewelry in the trunk from which the money was taken, were unmolested. The rogues evidently wanted only legal tender property.

War Excitement.—Something less than two thousand and nineteen times, yesterday, we were asked the question "any war news to-day?" A ... lively interest seems to be taken in foreign ... especially by our German citizens, and ... is discussed at every corner and by almost every group in or out of doors.

U. S. District Court—Deady, Judge.—Monday, July 18.

U. S. vs. Ah Pow—Indictment for selling liquor to Indians—Sentenced to six months imprisonment in Multnomah County Jail.

Certificates of discharge in bankruptcy granted to H. C. Hill, Isaac Levy, and M. Sinsheimer.

Some Tall Grass.—When at the Cascades the other day Messrs. Buchtel and Braden pulled up a bunch of timothy grass which they found growing in the wild mountains, the stalks of which measure from six to nearly eight feet in length, with heads measuring from eight to fifteen inches long. Pretty good for self made grass.

Contract Awarded.—The bids for printing in pamphlet form the proceedings of the Grand Lodge A. F. & A. M., were opened yesterday morning in the presence of J. C. Ainsworth, U. E. Hicks, and the Grand Secretary, J. E. Hurford. The contract was awarded to Geo. H. Himes of this city.

Social Party.—Mine host of the American Exchange and a few friends propose to engage in a social hop this evening at the Exchange dining room. Charley always manages these little affairs so as to ensure a pleasant evening for his guests.

Denied.—The reports in circulation last week to the effect that Ben Holladay had bought the mill property of Estes & Stimson at North Portland, are authoritatively denied by the *Bulletin* of last evening.

U. S. Circuit Court.—This court will meet this morning, and the opinion in the case of Lamb vs Burbank and others will be delivered.

Green Corn.—The first Oregon green corn of the season appeared in market yesterday. The ears were small but well developed.

To Load with Lumber.—The *L. C. Taylor*, lying at Astoria, has been ordered to Shoalwater Bay to load with lumber.

Sociable.—The ladies of the Unitarian Church are to have a sociable at the chapel, this evening.

B. B.—Meeting this evening of the Pioneer Base Ball Club.

THE TERRITORIES.

A large amount of gold has been taken out of the Moose creek mines, though the water is now failing.

The crops in Walla Walla valley are better this season than at any period since the valley was settled.

The copper mines of the Lake Superior region are ceasing operations. The production of copper, it is reported, was over stimulated by the demand during the war, and the result has been the accumulation of a large amount of stock.

The Salt Lake *Herald* says a car load of hides was shipped to Chicago, June 24th. Plumbago has been discovered in the northern part of the Territory. Sacks were sent to the Tintic mines recently, to ship 23,000 pounds of ore. This ore has been selling in town for $21 per ton.

The tribe to which an Indian murderer belongs is known by the method by which the victim is scalped. The Cheyennes remove a piece not larger than a silver dollar from immediately over the left ear; the Arrapahoes take the same from over the right ear. Others take from the crown, forehead, or nape of the neck.

A Walla Walla paper says: A gentleman just down from Kootenai, informs us that hill diggings have been struck adjoining the old camp, which pay from $20 to $30 per day to the hand. These hill diggings had created great excitement, and the Kootenai boys are all jubilant over the discovery.

The Helena (Montana) paper of late date gives this account of a new "stampede:" A stampede has been, and is still, going on to a newly discovered gulch which empties its waters from the Cœur d'Alene range into the Missoula river fifteen miles above the mouth of Cedar creek. The new discovery, which has been named Quartz gulch, is reported to be twenty miles long, running nearly east and west. Two discoveries have been made, and two districts organized.

A Deer Lodge paper of July 5th has this: In all the camps work is being vigorously prosecuted and the yield of gold is immense. The last year debts are now pretty well paid up by the miners, and free money is getting into circulation. There is complaint that the mines at Silver Bow and Hocker are not yielding as largely as anticipated. This we believe true. But they are yielding good wages if water was cheaper, and when all things are considered; good wages diggings are the best for the country.

The Alaska *Times* states that reports from the Taccoo river are very favorable for prospectors. The Indians in that section exhibit fine specimens of gold picked up along the banks and creeks of the river. There can be no doubt as to the existence of gold in that region. The question is, can it be found in paying quantities? As yet no effort has been made to solve this problem, and no person can give a decided proof as to the quantity that may be found there. The *Times* learns that a party of active and energetic young men are forming themselves to go down there and give the enterprise every attention.

The *Transcontinental*, the organ of the Boston excursion party, in a number published on board the Pullman train, while passing Promontory Point, Utah, says: Swarms of mammoth crickets, coming in hordes, at times cross the track of the railroad in such numbers as to completely stop all passing trains. They measure about two inches in length, are very fat and plump, and jump upon the rails when warmed by the sun. As the locomotives traverse this district they crush them by thousands and spread over the rails a glutinous substance resembling grease, and the wheels soon revolve helplessly without moving the train. We have seen them by the thousand. The Piute Indians catch them in large numbers and dry them as an indispensable article of food in winter. Cricket soup is a new suggestion for our epicures.

BRITISH COLUMBIA.

At Nanaimo there are 27,000 tons of coal above ground, and the company are building a new engine house.

Thompson River, during the recent freshet, overflowed its banks and submerged a very large section of country. An abandoned site of the Hudson Bay Company was under water for several days and the whole valley presented the appearance of a lake.

According to advices from Cariboo times are improving in that mining district. Lightning creek is exciting very great interest, and is expected to yield largely. The ground has been staked off for 12 miles. Hands were becoming very scarce, and wages, consequently, tending upward.

Under the new postal arrangements between British Columbia and the United States letters insufficiently paid are to be transmitted as wholly unpaid. Newspapers, pamphlets, magazines and all other articles of printed matter are to be chargeable with the regular domestic rates of postage to and from the frontier line in the United States and the provinces respectively.

The Victoria *Colonist* "goes off" in this style about the proposed Canadian Pacific railway. "The Canadian Pacific cannot be built? Who says that? The nation that penetrated to the heart of Abyssinia and spent sixty millions to humble a proud monarch and release a subject, will surely not hesitate about spending a like sum in order to create an Empire. It cost sixty millions to release Cameron, ... is it not worth as much to establish sixty millions of those now left to die in squalid misery in a happy and prosperous western home? The Canadian Pacific Railway can be built. It MUST be built. It SHALL be built." All of which does not seem very conclusive.

A cotemporary says the effect of warm weather on the feline vocal organs is most wonderful. It adds a fullness, strength and endurance which nothing else (unless it be a bootjack or a brickbat) appears to be capable of conferring.

Our Citizens certainly deserve credit, for the energy they display to make the Oregon Immigration and Labor Exchange a success and benefit to the State, as well as the immigrant coming to our State. Every citizen should give all the aid in their power to help the large number of strangers coming to our State, and not forget to inform them that Kohn & Fishel, No. 91 Front street, have the largest stock of clothing in Oregon, other goods are of superior quality and sold at extreme low prices.

CALIFORNIA AND NEVADA.

The new State Capitol of Nevada is progressing rapidly, the first story of stone work being nearly completed.

An awning fell on the 4th in Petaluma, (Cal.) by which a child of six years was killed and five others more or less injured.

A San Francisco paper states that Market street is destined to become the great business artery, the Broadway of that city.

A new wine house is being erected at Yountville, Sonoma county, Cal., capable of manufacturing 200,000 gallons of wine this year.

A grave digger at White Pine struck *chloride* about the time the grave was ready for occupancy and refused to vacate the hole for the corpse.

At Virginia (Nev.) on the night of the 25th, a drunken man named Jerry Harrington was caught between the locomotive "Comstock" and a platform at the crossing, and horribly crushed.

On the Central Pacific Railroad, during the first four months of this year, 5,043 passengers were carried East and 9,052 were brought West. This shows a gain for the coast of 4,000, or 1,000 per month.

The number of grape vines under cultivation in California during the year 1868 was set down, officially, at 28,405,580. The increase for 1869 and 1870 must very materially swell this already large reported aggregate.

The Internal Revenue Collector has received orders to collect back taxes on the capacity and per diem from Los Angeles and San Bernardino distillers to the amount of $6,000. The tax is reckoned back to 1868. Its payment will crush some of the brandy distillers.

The State Board of Education in California propose to introduce McGuffey's old series of reading books in the schools of that State. Most of the newspapers protest, and declare there is a "job" in it. This nuisance of changing school books arbitrarily should be abated everywhere.

At the annual meeting of the San Francisco Labor Exchange, July 7th, the following facts appeared from the report of the Secretary: Employment has been found for 3,193 men and 2,745 women; total, 5,938 for this year. Total since the opening of the Exchange, 17,855 men and 6,726 women. Among these have been hundreds of orphans and other persons who have fallen into the care of our public charities.

Pacific Coast Appropriations.

In the general appropriation bill as passed by Congress there are the following items for Oregon:

For continuing the construction of the Custom-house building in Portland, $45,000.

For inclosing the Custom-house building at Astoria, $15,000.

For inclosing and putting in safe condition the building for the Branch Mint at Dalles City, $10,000.

For a new lighthouse at Cape Blanco, Oregon (in addition to former appropriations), $20,000.

For two harbor range lights to mark the entrance to Yaquina Bay, Oregon, $20,000.

For surveying public lands in Oregon at the rates of fifteen, twelve and ten dollars per mile, $25,000.

In addition to the above, $31,100 was appropriated for the improvement of the Wallamet river.

APPROPRIATIONS FOR CALIFORNIA.

For continuing the work on the Branch Mint building in San Francisco, $500,000—provided that the total cost of the building, exclusive of the sum paid for the site thereof, shall not exceed $1,500,000.

For repairs and improvement of the Custom-house building in San Francisco, $10,000.

For repairs of buildings and grounds of Benicia Arsenal, $3,000.

For surveying the public lands in California, at the rates of fifteen dollars per mile for standard, twelve dollars for township and ten dollars for section lines, $50,000.

Following are appropriations for Mare Island Navy Yard:

For completing the foundry and boiler establishment, $50,000.

For sawmill machinery, $5,000.

For joiners' shop machinery, $5,000.

For repairs of all kinds, $50,000.

For lighthouse and fog signal at Point Reyes, California (in addition to former appropriations) $45,000.

For a new lighthouse at Punta Arenas, California (in addition to former appropriations) $20,000.

THE TERRITORIES.

For continuing the survey of the Pacific coast, including the compensation of civilians engaged in the work, $20,000.

For surveying public lands in Utah Territory, $20,000.

For surveying public lands in Arizona Territory, $5,000.

For surveying the public lands in Washington Territory at the same rates with the same proviso, as in the case of California, $20,000.

Pure Air.—People who live in low latitudes, where malarial fevers are liable to exist, should not go out until the rays of the morning sun have lifted the fogs and dispersed the fevers, they should seek shelter in the evening before they return. If the weather continues cloudy, damp and rainy, even though it be warm, fires should be kindled to dry the air and expel the poisonous fevers. Persons who have observed these simple rules, and keep the system well regulated by a constant use of PLANTATION BITTERS, as prescribed in the printed directions which accompany each bottle, have been known to live a hundred years in the very worst of yellow fever districts, and yet never contract this terrible disease. The vegetable ingredients of the bitters are dandelion, chamomile and that wonderful elixir of life—calisaya bark, fresh from the Peruvian forests of South America. No sensible planter will ever be without PLANTATION BITTERS.

Want of Vitality.
Sometimes there is a lack of vitality in large and apparently well developed frames. Herculean sinews and muscles are not always indicative of stamina and constitutional vigor in their possessor. Health depends more upon the condition of the stomach, the liver and the bowels, than upon the breadth of the shoulders, or the size of those levers and pulleys of the system on which strength is supposed to reside. All this grand animal machinery is of itself no protection against sickness and decay. Easy and perfect digestion, regular and healthy secretions, uncontaminated blood, and a regular discharge of the waste matter of the body through the intestines, the kidneys and the pores, are the most potent safeguards against disease, the best guarantees of longevity. *To promote these objects is the great end and purpose of* Hostetter's Stomach Bitters. The ingredients of which the Great Tonic and Alterative is composed are taken solely from the vegetable kingdom and their medicinal virtues are not counterbalanced by the acid and poisonous elements which exist, more or less, in all the powerful mineral drugs. Sufferers from indigestion, biliousness, intermittent fevers, nervous debility or constipation, not only find immediate relief from the use of this agreeable stimulant and invigorant, but become conscious, as time wears on, of an increase of constitutional elasticity and vital force. Labor and exposure no longer produce the same effect upon them as heretofore, and they feel as if they had acquired a new hold on life, a new reserve of physical and mental energy. This has been the experience of thousands of both sexes, and every day adds to the mass of corroboratory testimony. Whenever the temperature and state of the atmosphere exercises a depressing influence over the minds and bodies of invalids, Hostetter's Bitters is the only tonic upon which they can rely for swift and permanent restoration.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851,
STEAM POWER, NOS. 635 AND 637 FRONT ST.
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.
Each package bears the signature of G. VENARD.

Farm for Sale.

320 ACRES OF LAND, IN JACKSON COUNty, for sale or exchange for city property. It is in the suburbs of Gasburg. Gasburg, like the beaver, is all "terminus." The branch of the Central Pacific Railroad will intersect the Oregon and California road at Gasburg. The Oregon Central will run through it, as does the stage road now, and many a railroad as yet unthought of, will find its "terminus" in Gas-burg. The warm and dry winters, the mild Italian summers, the gushing springs of water at short intervals, the lofty peaks of the Cascades on the east, the Coast Range on the west, the broad and fertile valleys on the north and south, and last, but not least, the inexhaustible forests on every hand, make it naturally one of the finest "terminuses" that ever was attached unto the "other end" of any railroad. Also a one third interest in a water-ditch and forty acres of mining lands, which have been worked for nine years and never failed to pay a dividend.

Strawberries 5 cts per pound; ONE MULE at 20 cts per pound, and groceries in proportion.

Mine and Thine

Every wedding, says the proverb,
Makes another soon or late;
Never yet was any marriage
Entered in the book of fate
But the names were also written
Of the patient pair that wait.

Whose will be the next occasion
For the flowers, the feast, the wine?
Thine, perchance, my dearest lady;
Or—who knows?—it may be mine;
What if 'twere—forgive the fancy—
What if 'twere both mine and thine.

A Fisherman's Story—Angling for a Dog

We were traveling on grounds we had no right on. The only excuse was like that of a military necessity; it was far better fishing through the farms where the trout had been preserved than in any open brook in the region [illegible] fish.

It was early in the morning. We had risen at three, ridden ten miles and struck the creek as the trout were ready for breakfast. Looking carefully for a sheltered place to hitch our horses we slyly crept on behind fences, etc., until we reached a part of the creek not generally fished. A farm house stood [illegible] part of a meadow. We saw the morning smoke curling lightly from a stove pipe, saw a man and two boys come out to do chores, saw a woman busy about the door, and a ferocious bull dog wandering about the yard.

If we ever fished it was then. Not a whisper to disturb the birds or the owner of the land. We crawled through the grass and dodged behind alders, lifting large speckled beauties until our baskets were full.

This was the time to have gone, but the trout were so large and bit so rapidly that we decided to string and hide what we had and take another basketful. So it was. [illegible] No sooner would the hook touch the water than it had a trout. We forgot the house, the man, the boys and the dog. Suddenly there was a rushing through the oatfield as if a mad bull were coming. We looked toward the house, and saw the farmer and his two boys on the fence, the woman in the door and the dog bounding toward us. We all saw—we had been discovered! The trained dog had been sent to hunt us out, and as the matter appeared, it was safe to bet that he was doing the thing rather lively.

To outrun the dog was not to be thought of. There was no time to lose. He cleared the fence and came for us just as we reached the tree, and by great activity took a seat on a limb just above his reach. Here was a precious go! A vicious bull dog under a tree and the farmer and two big boys ready to move down upon our works. It was a light, foot race of fangs.

The farmer yelled to his dog, "Watch him, Tige!"

Tige proposed to do that little thing, and keeping his eye upon us seated himself under the tree.

Then spoke the ugly farmer: "Just hold on thar, stranger, till we get breakfast, then we will come and see you. If you are in a hurry, however, you can go now. Watch him, Tige!"

We surmised trouble quite too much, for twice had that bold man of bull dogs and agriculture elegantly walloped innocent tourists for being seen on his suburban premises. His reputation as a peace man was not good, and there arose a large heart toward our throat.

Time is the essence of contracts, and the saving of trouble. We had a stout line in our pocket, and a large hook, intended for rock bass, if we failed to take trout. And as luck would have it, we had a nice sandwich and a piece of corn beef in our pocket.

We called the dog pet names but he was not on it. Then we would try to move down, when he moved up. At last we trebled our bass line, fastened the limerick to it, baited with corn beef, tied to a limb and angled for a dog. Tige was in appetite. He swallowed it, and sat with his eyes on us for more, but with no friendly look beaming from his countenance. Not any.

Then we pulled gently on the line—it was fast. Tige yanked and pulled, it was of no use.

We slid down the tree quickly—blistering our back doing it—we seized our pole, and straightway went thence home lively.

We found our string of fish and reached the buggy and a commanding spot in the road in time to see the sturdy yeoman move forth.

We saw him and his consorts, male and female, move slowly, as if in no haste. We saw them look up in the tree. We saw an anxious crowd engaged about the dog. We came quickly home and kindly left the bass hook and line to the farmer.

A Rich Treat.

COURTING UNDER DIFFICULTY—CHAMPAGNE AND CITRATE OF MAGNESIA

The Colusa (Cal.) Sun of July 2, tells the following good story. A few days since a young man appeared in Colusa and made a canvass of our town in disposing of various Yankee notions. His experience in regard to this world was evidently of rather a limited order, yet he was industrious and strived to obtain a market for his wares and his efforts were to a certain extent crowned with success. During his sojourn among us he became infatuated with

A DARK EYED MAIDEN OF COLUSA—

One of Missouri's choicest offerings—a feeling which often takes possession of visitors to this section, and frequent became his visits to her domicil. His devotion was reciprocated, for on several occasions, at evening twilight the devoted couple were to be seen seated in close proximity upon a log beneath the spreading branches of one of our grand old oaks. After sundry walks our mercantile friend concluded he would obtain a chariot and roll out on the plains in company with her who was causing the spirits to rap in every chamber of his heart. He repaired to one of our livery stables and procured a team and vehicle. The next thing requisite for the journey was something to soothe the agitated spirit, in the way of refreshment. He visited several saloons and

INQUIRED THE PRICE OF CHAMPAGNE.

Finding that article would command from $3 50 to $5 per bottle he concluded the luxury was altogether too expensive, and he endeavored to find some other beverage to be indulged in by himself and sweetheart during the forthcoming ride. At last he entered one of our drug stores and asked if a temperance beverage could be furnished for the above named purpose for a moderate sum of money. The druggist assured him he had a very pleasant drink called

CITRATE OF MAGNESIA,

Prepared by himself, which he could warrant fresh and lively and which could be obtained for twenty five cents per bottle. Our hero immediately closed a bargain, and seized upon two bottles with avidity. They were placed under the seat of the buggy with great care and everything being in readiness, the young lady was soon ensconsed by his side behind a spanking team, [illegible] the suburbs. After a drive of an hour the gallant driver reached under the seat and surprised his fair companion with the presence of two bottles of liquid which he suggested would be refreshing on the dusty road.

Both suffering from a severe thirst the contents of the two bottles soon disappeared and the fine flavor commented on favorably. Thus refreshed, the lash was freely applied to the team, and our happy couple were jolted over a somewhat uneven road with their equilibrium undisturbed, until some time afterward, on their return, when they were both suddenly seized with an unpleasant sensation in the vicinity of the refreshment receptacle. The fair one bent over forward, the gallant admirer doubled up and squirmed until things began to assume a serious character. The perspiration rolled down in huge drops from the forehead of one who a few moments before had declared his happiness complete. The smiles of the maiden were suddenly transformed to

UNPLEASANT CONTORTIONS

Of the face, until at last the magnesia about to become master of the situation forbearance ceased to be a virtue, the team was stopped, and without one word of explanation each party made a desperate [illegible] from their respective sides of the buggy, and the scene which ensued our pen is incapable of describing. Suffice it to say no unnecessary time was lost in reaching town, not a sentiment of love was uttered, and a young man was seen earnestly engaged in hunting the druggist, who could not be found, and he expresses a huge disgust at the mere mention of citrate of magnesia as a buggy beverage.

Anarchy in North Carolina

WASHINGTON, July 1.—Affairs in North Carolina appear to be as bad as they [illegible] ferocious lawlessness [illegible] judicial district 1,500 whippings [illegible] murders of known Republicans [illegible] chronicled, with a number of [illegible] barbarities too horrible for publication. In one case a burning stick was thrust into a woman's mouth to prevent outcry. [illegible] condition of affairs has been [illegible] worse and judicial punishment [illegible] inflicted for these outrages [illegible] [illegible] when [illegible] the first known [illegible] trated by men [illegible] [illegible] Holden has now nearly completed the organization of two full regiments of loyal militia, one commanded by Col. Kirk, who commanded the First North Carolina Loyal Volunteers in the late war, and the other by [illegible] who served with distinction on the Confederate side. When Gen. Stephen A. Douglas arrived [illegible] all [illegible] the Governor, he addressed a Republican meeting, and the next morning [illegible] found threatening himself and Col. Kirk with death if they persisted in [illegible] troops. Gov. Holden, who is now here, [illegible] terday in company with Senator [illegible] long interview with the President, to whom he explained the situation. The President [illegible] formed the Governor that he heartily approved his course, but thought he ought to have resorted to repressive measures [illegible] He ordered two companies of troops to be sent into the State at once for moral effect, and assured the Governor that if the reign of violence continued he might call upon him for troops, and he would send force enough to restore order in the State. Gov. Holden and S. A. Douglas [illegible] will return to North Carolina on Sunday.

CROW NEST ON THE HUDSON RIVER.—The Newburgh N. Y. *Journal* says that on June 20, as the popular D. S. Miller of [illegible] keepsie and the barge *Susquehanna* were passing Crow Nest Mountain, which looms almost perpendicularly up from the water one solid mass of rock, an awful explosion of thunder occurred, immediately followed by a vivid sheet of lightning. A fire bolt descended and struck the mountain, splitting off an immense piece of rock, eighty or over a hundred tons, which was hurled into the air and plunged with fearful momentum into the river at the base of the mountain. Showers of pieces were scattered in the air, some of them falling upon the decks of the passing vessels. The smell of brimstone was for some time almost overpowering, and the hiss of the water as the heated rock plunged into it was plainly heard.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES.

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering a miserable existence from the effects of secret indulgences or from virus absorbed into the system. Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay obtaining immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding him as to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity to any part of the country, with full and plain directions for use, for Ten Dollars, south registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn certificates done the unwary. Some of the self styled doctors who are seen [illegible] found in the daily and weekly newspapers of San Francisco and other places are tradesmen and [illegible] too lazy to work at their trades. [illegible] [illegible] newspaper carriers, [illegible] Look over the San Francisco Directory and you will not find their Medical Institutions in it, but you will find the former occupation [illegible] Directory for 1867 and 1868. The [illegible] is to make enquiry—it will [illegible] and may save you many regrets, for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pictures [illegible] letters etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he [illegible] posses[illegible] cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial (Private Entrance on Commercial) San Francisco. Post Office Box 284.

REMEMBER TO PUT BOX 958 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*. [illegible]
